

THANK YOU to SaskEnergy

For Supporting Volunteer Saskatoon
&
Our National Volunteer Week initiatives for seven years

Through their dedicated involvement in community initiatives, SaskEnergy has earned a reputation of being the Champion of Volunteers. SaskEnergy understands that the secret to organizing a successful event rests with the volunteers who make it possible. SaskEnergy is proud to support volunteers.

As one of the biggest cheerleaders of youth volunteerism, SaskEnergy helps turn big ideas into reality. The Team Energy grant program helps youth get started, whether it is a community service project or an environmental stewardship project.

SaskEnergy is proud that their employees willingly participate in Company-driven community initiatives that make our province a dynamic place in which to live and work. In 2006, they implemented a new employee volunteerism policy that encourages employees to make time for volunteering and to initiate their own worthwhile projects on behalf of the Company.

Volunteer Saskatoon salutes SaskEnergy for demonstrating the true spirit of our province and taking leadership in championing all volunteers!
