TEN STEPS TO CREATING SAFE ENVIRONMENTS FOR CHILDREN AND YOUTH workshop

Thursday June 21 – Friday June 22, 2012

Presented by the Canadian Red Cross RespectED program

Do you have the tools to do the job?

TEN STEPS TO CREATING SAFE ENVIRONMENTS is a comprehensive road map or risk management strategy that supports organizations in a step-by-step process to address violence. This two-day workshop will give your organization's decision makers the tools to develop, implement, and monitor risk management strategies within your organization to help keep personnel and participants, especially children and youth, safe from violence, abuse, and harassment.

Who should attend: decision makers, upper-level management of organizations that work with children and youth. We strongly encourage that at least two members from each organization attend the training for maximum benefit to your organization.

More details (including pricing and location) coming out soon.
